# Automatic High-Pressure Cleaning For Tank

3D rotating nozzle systems

SAFE · EFFECTIVE · SMART · ENVIRONMENTAL

- For all Tanks
- Productivity increase due to shorter cleaning times
- Reduction of labor costs due to automation of the cleaning process
- Improved working conditions

Dye in tank before and after cleaning

### Specifications

Materials	Stainless steel 304 or 316
Weight	30KG
Working pressure	50-300 bar
Capacity	30-120 lpm
Max.working temperature	80°C
Cleaning cycle	3-10 minutes
Rotation speed	5-14rpm
Installation	Fixed
